

**New Hampshire Department of Health and Human Services
Early Intervention Services and Behavioral Counseling
For Human Immunodeficiency Virus
RFP-2017-BIDC-15-EARLY**

ADDENDUM #1

On January 27, 2017, the New Hampshire Department of Health and Human Services published a Request for Proposals, seeking competitive proposals from qualified organizations to provide, in a Community Health Center or Federally Qualified Community Health Center, the following services:

- Early Intervention Services (EIS) to all priority populations; and
- Behavioral Counseling to the priority population who have been identified, through early intervention services, as high risk for acquiring Human Immunodeficiency Virus (HIV).

The Department is publishing this Addendum #1 to:

1. Delete and replace Section 1.1, Purpose and Overview with the following:

This request for proposals (RFP) is published to solicit proposals from qualified bidders to provide, in a Community Health Center or Federally Qualified Community Health Center, the following services:

- Early Intervention Services (EIS) to all priority populations; and
- Behavioral Counseling to the priority population who have been identified, through early intervention services, as high risk for acquiring Human Immunodeficiency Virus (HIV).

The selected vendor(s) will provide Early Intervention Services to help clients who are unaware of their HIV status learn their status and receive either referral to prevention services or referral to linkage to HIV care services.

The selected vendor(s) will provide Behavioral Counseling to help clients reduce their risk for acquiring HIV.

The New Hampshire Department of Health and Human Services (the Department) seeks to contract with up to two Community Health Centers or Federally Qualified Community Health Centers in New Hampshire which have a minimum primary care client population of **1,000** unduplicated individuals.
